

The Ulster College of Music has joined primary schools and youth organisations in raising awareness of Autism across Northern Ireland.

Musical Games, Mini Music, recorder and piano pupils made splendid **super hero** music in class – thank you to all involved for support and encouragement.

Pupils picked five **Superhero Tasks** to do at home, then arrived for lessons at UCM in Superhero dressed as their favourite Superhero character (in any form). Superheros in Ms Jane's musical foundation classes had the added bonus of **composing superhero music**.

By taking an interest in this event you've all become part of the solution in making the world seem a better place for people with a diagnosis of Autism.

You're all **super stars**
Well done! says Ms Jane

THANK YOU!
